

YOU'RE INVITED

Macular Degeneration Congressional Briefing

FEBRUARY 24, 12-1PM | Rayburn Room 2043

Presented by:

**1 IN 3 AMERICANS
OVER 75 ARE AT
RISK FOR MACULAR
DEGENERATION**

About this Event

While other major health issues command attention, macular degeneration silently steals the sight of millions of Americans – including your constituents. This critical briefing highlights updates on the latest AMD research, showcasing the potential for transformative breakthroughs – **if** we protect and prioritize funding in vision research. Our aging population is watching closely to see how we address this challenge and ensure access to cutting-edge treatments. Attend this briefing to learn how we can deliver results for Americans at risk of losing their vision, and their independence.
